# muck-truck

Designed and Manufactured to the highest quality and specifications in the UK since 1994.

Now produced in three continents for world wide distribution.

**muck-truck** has proven to be the benchmark which other manufacturers strive to emulate.

**muck-truck** 1st with the concept, 1st with the design

## High Productivity

- **muck-truck** is fast - it works all day with minimum operator fatigue
- At less than 28" / 700mm wide it will go through the average doorway
- Four wheel drive and choice of wheels for remarkable 'go any where' capability
- Designed to be as easy to steer when loaded as empty
- Tips safely and easily straight into a skip with the optional loading ramp

## Built for Strength and Quality

- Designed to withstand professional use ( over eleven years in the hire industry )
- Powder coated paint is used to reduce rust and scratches  
All the material for the **muck-truck** is laser cut for a perfect finish
- Carries three conventional wheelbarrow loads  
( 120 bricks; 15 x 1m Rolls of turf )
- Choice of Honda GCV160 or GXV160 5.5hp unleaded petrol engines

## Easy to Maintain

- Transmission is sealed for life and requires no servicing
- Brake and belt adjustments do not require removal of covers
- All engine adjustments, including plug and air filter replacement instantly accessible

- Five minute drive belt changing
- All spares stocked  
Next day delivery on orders placed before 11am ( within the UK )

## Simple and safe to use

- Four forward speeds 0.5mph - 3.5mph - one reverse
- The machine stops dead when the clutch lever and parking brake is released
- Hand throttle lever for precise forward speed control
- Balanced weight distribution for easy tipping
- Super quick release catch for fast changes of skip and accessories

## Super quick fit accessories include

- Flat Bed
- Skip Loading Ramp
- Skip Extensions
- Powerful vacuum attachment ideal for paddock cleaning, collecting leaves and litter
- Ball hitch attachment for caravans or trailers
- Snow Plough
- Bulk Skip
- Double front drive wheels

average doorway**

**Easy to load**

**Works well with  
mini digger**

**Ideal with  
cement mixer**

# muck-truck

*It doesn't cost the earth to move it!*

The **muck-truck** is very easy to maintain due to the transmission being a sealed unit and requires no attention other than periodic brake adjustment. Engine adjustments and servicing can be carried out without removing covers. To change the drive belt takes less than 5 minutes with no specialist tools required.

All spares are readily available and if ordered by 11am can be delivered the next working day ( within the UK ). If you provide us with a post code spares can even be delivered to your working site.

Attachments can be fitted in seconds, just remove one lynch pin, slide attachment off / on the two locator brackets and replace the pin.

A fully loaded **muck-truck** will climb up to 38 degrees.

The skip will carry up to  $\frac{1}{4}$  tonne / 250kgs / 550lbs.

The **muck-truck** can be used alongside a standard cement mixer and cement can be tipped from the mixer into the skip, providing the mixer is fitted to a frame.

A 3 month commercial warranty or a 12 month warranty for private end users is given with the GCV engine. A 24 month commercial warranty is given with the GXV Honda engine.
